

K-Love is the station that I listen to and it provides me with family values that I can not find in other stations. I know many other community members that listen to K-Love and their family would suffer if displaced by an LPFM broadcaster. I believe that our families are in danger of not being offered quality christian stations if we were to lose K-Love in our community. Most stations do not have christian values and talk about subjects that I don't want my children to listen too. I am sending my support for continuing to receive K-Love as a service to our community.
Sincerely, Pat Clark
